## **LETTER FROM THE PRINCIPAL**

---

Dear Students/Parents:

The 2019-2020 Academic and Career Planning Guide is designed to assist students in planning and managing their four-year high school academic program. The goal of Williams Bay High School is to provide a variety of academic and career pathways that will allow students to individualize their course of study to meet their college and career goals. We strive to provide our students access to courses and programs at our school, via on-line learning opportunities, and other sources so that students can personalize their learning experience to match their college and career goals.

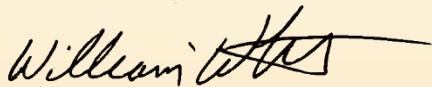

The Academic and Career Planning Guide provides an overview of all courses offered at Williams Bay High School, and the course alignment to potential career pathways. Utilize this guide in conjunction with your personal goals and career interests to inform your decisions on course selections.

How to use this book:

I recommend that students, along with parents, review the sixteen career clusters listed on pages 47 and 48 of this book to begin planning a personalized program of study to meet the student's future goals. More detailed information about each cluster is provided in the individual career sections. Along with this information is a listing of suggested Williams Bay High School courses that support each career cluster.

A student can utilize the career information, the graduation requirements, college admission information and the four-year planning guide to build a personalized course of study that meets his or her interests and future college and career goals.

Sincerely,

Dr. William White  
Middle and High School Principal

## **WILLIAMS BAY SCHOOL DISTRICT VISION**

---

The Williams Bay School Community empowers all students to achieve and excel academically, socially and civically to reach their individual goals.

### **DISTRICT VISION**

Williams Bay Students will reach their individual goals by:

- Learning and becoming a lifelong learner
- Making a positive contribution to society
- Exercising the right to learn in a safe, healthy and nurturing environment

<b>VALUES AND BELIEFS:</b>	Achievement	Individualism
	Compassion	Integrity
	Good Citizen	Motivation
	Honesty	Respect
	Human Dignity	Responsibility

# **COLLEGE/CAREER COUNSELING**

---

## **Introduction**

College/Career counseling at Williams Bay High School is a comprehensive program which culminates in a post-secondary plan for each student. This involves a process throughout high school, with a somewhat different emphasis and focus each year. It is the objective of the Student Services Department to provide individual planning for all students. The Williams Bay Student Services Department follows the Wisconsin School Counseling Model.

## **Eighth Grade (Incoming Freshmen)**

The high school counselor will meet with the eighth-grade students in February/March. The meeting will introduce the course selection process and students will be shown how to access the College and Career Readiness Guide and Course Selection Forms.

## **Freshman Year**

Counselors meet with all students in the first semester to develop an Academic and Career Plan (ACP). This four-year ACP guides students toward their post high school goals. The counselor discusses current academic performance, co-curricular involvement opportunities, career plans, and post-high school goals including college options with each student. Students are introduced to Career Cruising through one of their classes that is designed to help students learn more about themselves and find occupation and colleges that may match their interests.

## **Sophomore Year**

Career assessment programs and research are emphasized again during the sophomore year using Career Cruising. In February/March students are invited to meet with their counselor to discuss specific post-secondary planning procedures. Students will update their ACP plan and adjust their courses to fit their career goals.

## **Junior/Senior Year**

All juniors are required to take Junior Seminar. This course is designed to provide ACT test preparation, career exploration and to stress the importance of college/career planning such as testing, college research and the use of Career Cruising. In February, parents and students are invited to meet with the high school counselor to discuss post-secondary plans. This is called the "Junior Conference" and is available for every student in the junior class. This meeting is used to set goals and plan for the future. The college planning timetable is discussed and valuable information about the college planning steps are introduced using the Student Services Department website. Students are encouraged to set up individual meetings with their counselor for help with the college search process and post high school planning.

The focus for seniors will be finalizing post-secondary plans and the college application process. This will be done in September by conducting a senior interview with each student.

## **College Entrance Exams**

Detailed information concerning college entrance exams is provided to students in the sophomore and junior years. All students who intend to enroll in a four-year college or university are encouraged to take the ACT and/or the SAT at least one time between December and June of their junior year in addition to the required ACT test in March. Statistically, most students improve their test score if they take it a second time. The testing program provides necessary information used for student placement, college admission and vocational preparation. The program includes tests that are administered by the school to determine student ability and achievement. There are also tests which are referred to as external tests designed to determine achievement in a variety of academic areas. These test scores are standardized on a national basis and are used primarily for college admissions or for vocational placement. The external tests which students may take are listed below:

### **External Tests—Required**

<b>Test</b>	<b>Date</b>	<b>Grade</b>
ASPIRE 9 Test—First pretest in the ACT series	May	Grade 9
ASPIRE 10 Test—Second Test in ACT series	May	Grade 10
WI Forward Social Studies Assessment- State Test	May	Grade 10
ACT & ACT WorkKeys- Final Test in ACT Series	Feb/March	Grade 11
Civics Exam	In Am. Government	Grade 11

## Optional Tests

Test	Date	Grade
Preliminary Scholastic Aptitude/National Merit Scholarship Qualification Test (PSAT)	October	Grade 10/11
American College Test (ACT)	Sept- June	Grade 11/12
Scholastic Aptitude Tests (SAT)	Sept-June	Grade 11/12
Advanced Placement Tests (AP)	May	Grade 9-12

## Courses Recommended for College Admissions

If a student intends to attend college, it is very important that students and parents at an early date consider the general requirements for college admissions.

Class	Credits
English	4.0
Mathematics	
◆ Algebra I or Algebra A and B	
◆ Algebra II	
◆ Geometry	4.0-5.0
◆ Honors Advanced Math	
◆ AP Calculus	
Laboratory Science	
◆ Biology	
◆ Chemistry or Honors Chemistry	3.0-4.0
◆ Physics or Honors Physics	
◆ AP Chemistry	
Social Studies	
◆ American History	4.0
◆ World History	
World Language	2.0-3.0

- ♦ Please note that many colleges require two years of the same world language for admission, nearly all acknowledge the advantage of such study, and many strongly recommend three or four years of a single world language.
- ♦ The above outline of courses represents the pattern of subjects recommended or required by most colleges. Highly selective colleges are frequently concerned regarding the levels at which coursework is completed. For information on specific entrance requirements of schools, please contact the counselor.

## Further Consideration

To fully utilize opportunities available at Williams Bay High School, students are encouraged to become involved in the extra-curricular activities offered by both the school and community. Many colleges view the depth of commitment to these kinds of experiences as an important factor in making admission decisions. This involvement, while important, is not to be viewed as a substitute for a strong academic record.

Other factors involved in the admission process are grade point average, rigor of course work, special talents (e.g., art, music, debate, theatre, athletics), and performance on college entrance tests. In some instances, colleges provide additional consideration to legacies, personal recommendations, and the academic strength of the high school.

## SPECIAL SUPPORT SERVICES

---

### STUDY HALLS

Williams Bay High School will operate a conventional study hall throughout the day, and an Honors Study Hall.

#### Regular Study Hall

A study hall is, as the name implies, a place to study. However, it can also be used for recreational reading and relaxation provided the student does not interfere with the study of other students.

The regular study hall will meet in an assigned area and will be overseen by a study hall supervisor.

#### Honors Study Hall

Honors Study Hall, open to Juniors and Seniors only, is not meant to be an alternative to studying, but an alternative atmosphere in which to study. The Junior-Senior Honors Study Hall will meet in the Commons area and be supervised by the High School office.

More detailed information about study halls can be found in the Student/Parent Handbook.

## ACADEMIC SUCCESS CENTER

### Purpose

Students will experience academic success while enrolled at Williams Bay High School and will obtain the necessary skills to prepare for college and career.

### Role

The Academic Success Center (ASC) staff provides support in academics and study skills. Most importantly, the ASC staff helps students gain the fundamental concepts, skills, and strategies that will enable them to be successful in their current and future academic goals. To assist student's in the process, an Academic Success Plan (ASP) will be created for each student in collaboration with the ASC staff, the student's parent(s) or guardian, and the student. The ASP itself will be designed to capitalize on the student's strengths as well as areas for improvement indicated by their academic record.

### Purpose

The ASC will serve four main purposes during the regular school day.

#### 1. Guided Study Hall

Most students will be placed in the ASC for guided study hall. This program will serve as a more structured study hall with students in small groups working with individual staff members to ensure academic success through work completion and regular monitoring of student study skills and grades.

#### 2. Credit Recovery

The second component of the ASC is our online credit recovery program. We work closely with the Wisconsin Virtual School, CESA 8, and other providers to provide credit recovery option for students. Students will be assigned to this intervention by the counselor and high school principal based on individual needs.

### MATH LAB

The purpose of the Math Lab is to provide focused instruction for students who are experiencing difficulty in a math course. Ms. Thiel is available every day during FAST to provide instruction and support to students.

## THE WILLIAMS BAY SCHOOL LIBRARY

The Williams Bay School Library is open from 7:15 a.m. until 3:00 p.m. school days. Students may utilize the library for research and research instruction. The library has an extensive collection of fiction and nonfiction materials.

## **PSYCHOLOGICAL SERVICES**

A licensed school psychologist is available to assist students, parents, and teachers in promoting student learning, wellness and safety. The psychologist may meet individually with students and/or their parents to help them to resolve difficulties and may provide suggestions for assistance in the community. The Psychologist/Director of Student Services also works closely with Special Education teachers, and School Counselors to coordinate referrals and re-evaluation for both Special Education and Section 504 services. The psychologist works closely with the administrative team in crisis prevention, planning and management, and assists in developing strategies to support students who experience behavioral issues. The psychologist works with teachers and staff to develop appropriate interventions for students and conducts assessments as a member of an IEP team. The psychologist may provide counseling to students or meet with parents by appointment, or if the need is urgent, on a walk-in basis.

## **TRANSCRIPT | GPA | LAUDE**

### **Transcript Information**

Transcript information regarding classes taken and grades earned will not be changed once it is entered on the student's transcript. Because credit may not be duplicated, in the cases of courses repeated, credit (if earned) and grade points will be removed from the original course taken. The original grade will remain on the transcript, and the higher grade will count towards the GPA.

Any course that is paid for by Williams Bay High School will count toward the student's credits earned and GPA. Students who earn credit in Algebra, Biology and/or Spanish before entering high school will not earn credit towards graduation.

### **Grade Point Average**

The Grade Point Average (GPA) is used to measure a student's academic progress. GPA's are calculated after each quarter, however only the GPA at the end of each semester will appear on a student's transcript. All courses, with the exception of Advanced Placement and Honors courses carry the same weight when calculating GPA. AP courses and honors courses are graded on a 5.0 scale. All regular level courses are graded on a 4.0 scale. The table below outlines the various GPA weights as they relate to our letter grades.

Grade	Regular	Honors	AP
A	4.0	4.5	5.0
A-	3.7	4.2	4.7
B+	3.3	3.8	4.3
B	3.0	3.5	4.0
B-	2.7	3.2	3.7
C+	2.3	2.8	3.3
C	2.0	2.5	3.0
C-	1.7	2.2	2.7
D+	1.3	1.8	2.3
D	1.0	1.5	2.0
D-	.7	1.2	1.7
F	0.0	0.0	0.0

The GPA is based on all quarter grades earned each year. The seventh semester Laude Program is used to determine the valedictorian and salutatorian as well as the recipient of the Wisconsin Academic Excellence Scholarship.

Grades and credits for the following courses are recorded on a student's transcript; however, they are not included in the GPA calculation or class rank:

- ♦ Grades earned at other academic institutions (except part-time open enrollment courses)
- ♦ Grades earned through correspondence courses
- ♦ Grades earned prior to 9<sup>th</sup> grade (unless approved by the Administration)

## **Laude Honors Program**

Effective the Class of 2018, the Laude model will be used to recognize academic excellence at the conclusion of a student's high school career. Students will work to compete against the criterion for academic honors-not each other.

After a student's seventh semester, GPA will determine the level of honor on a student's high school transcript, and for academic recognition at commencement exercises. The following three levels of academic honors will be used:

1. Summa Cum Laude "with highest distinction" – Cumulative GPA average of 4.00 and above
2. Magna Cum Laude "with great distinction" – Cumulative GPA average of 3.75 to 3.99
3. Cum Laude "with distinction" – Cumulative GPA average of 3.25 to 3.74
  - a. The weighted GPA will be used to calculate all academic honors.
  - b. This model will replace the practice of using class rank and Valedictorian and Salutatorian on all official Williams Bay School District documentation.

## **REQUIREMENTS FOR GRADUATION**

---

### **26 Total Credits are Required for Graduation:**

Required Credits.....16.0  
Elective Credits.....10.0

### **The Classes and the Number of Credits Needed are:**

<b>Class</b>	<b>Credits</b>
English 9, 10, 11, & World Literature or AP English	4.0
Mathematics	3.0
Science (Biology required)	3.0
Social Studies (World History, American History, American Government are required.)	3.0
Physical Education	1.5
Health	0.5
Personal Finance I	0.5
Junior Seminar	0.5
<b>Total Required Credits</b>	<b>16.0</b>
<b>Total Elective Credits</b>	<b>10.0</b>

## **College Prep Recommendations—Varies at each College/University**

<b>Class</b>	<b>Credits</b>
English	4.0
Mathematics	
◆ Algebra I or Algebra A and B	
◆ Algebra II	4.0-5.0
◆ Geometry	
◆ Honors Advanced Math	
◆ AP Calculus	
Laboratory Science	
◆ Biology	
◆ Chemistry or Honors Chemistry	3.0-4.0
◆ Physics or Honors Physics	
◆ AP Chemistry	
Social Studies	
◆ American History	4.0
◆ World History	
World Language	2.0-3.0

## **HIGH SCHOOL REGISTRATION REGULATIONS**

1. Each student in grades 9-11 must carry a minimum of seven credits each year; only one study hall per day is allowed.
2. Seniors must carry a minimum of six credits. Only Seniors are allowed a study hall and internship. Administrative approval is required.
3. A student may register for a study hall, student aide or internship.
4. Any student who has failed a required subject must make up the deficiency before graduation.
5. Procedural registration regulations will be announced during registration.
6. Parents are asked to review a copy of the student's registration form.
7. Course offerings are based on staff availability and budget restrictions. The Administration will try to meet the needs of all student requests for course selections.

## **SCHEDULE CHANGES**

Each year a new master schedule is created to accommodate students' course requests. Faculty members are employed, textbooks are purchased, and rooms are assigned based on these requests. In late spring course verification forms are available on-line through Parent Connect. Parents and students can view them and request necessary changes or corrections. Schedule change requests will be considered for educational reasons only and honored as space is available. **Students must remain in the class until their schedule has been changed by their counselor.**

- ◆ Students may come in any time during the spring of the year, following registration, to make changes in their course selections.
- ◆ Once the new school year has begun the only schedule changes during the first week of school are those referred to the Student Services office by teachers.
- ◆ Schedule changes are not allowed at the quarter, but changes are allowed again at the end of the first semester. Availability of classes, however, is limited at this point.
- ◆ Schedule changes are not made until the correct forms are handed in to the Student Services Office.

### **Dropping a Course**

A student's request to drop a course may be considered if extraordinary circumstances warrant it and after a meeting between the student, current teacher, counselor and principal. If it becomes necessary for a schedule change to be made after the permitted time period has passed; the student may receive a grade of "F" for the semester.

## **Changing a Course**

Students may change a class during the second week of school if:

- ◆ Space is available
- ◆ The student obtains permission from the teacher
- ◆ The change moves the student from a larger class to a small class with the same teacher
- ◆ Schedule changes are not allowed at the quarter, but changes are allowed again at the end of the first semester. Availability of classes, however, is limited at this point.

## **Course Level Changes**

On occasion, students may need to change the level of the class in which they are enrolled. Level changes are a collaborative effort between parents, the teacher, and the school counselor and cannot be approved until all parties involved have been able to discuss the change. Level changes will be made whenever it is deemed appropriate. Before a course level change can be approved the student must:

- ◆ Discuss the change with their current teacher, school counselor and parent
- ◆ Complete the student portion of the add/drop form
- ◆ Request that their teacher, parent and school counselor complete the appropriate parts of the form.

The letter grade earned at the time of the level change will accompany the student to the new class.

Peer Helper/Tutor	0.25 or 0.5	Semester or Year	9, 10, 11, 12

#### **Additional Courses**

WBHS offers a variety of course offerings through online providers (WVS and Fuel Ed) and other programs such as Youth Options, Building Trades Academy, and VanGuard. Please see more information in the Course Guide or ask the High School Counselor for more information.

## ART DEPARTMENT

---

### ART BASICS

Grades: 9-12

One Year

1.0 Credit

Elective

**Prerequisite:** None

This class is designed as a survey class that explores the possibilities of two and three-dimensional art and art history. Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the year progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of each semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

The class focuses on drawing and painting skills. Specific instruction is offered in value rendering, contour line, drawing people and figures, perspective drawing, sequential art and realistic rendering. We will use a variety of media to include: pencil, chalk, charcoal, oil and soft pastels, pen and ink, and colored pencils. We will also explore watercolor and acrylic painting techniques.

The three-dimensional arts, such as sculpture, will also be explored throughout this class. We will work with clay to create functional and non-functional pieces. Media to be explored include: wire, found objects, silk screening, block printing and etching. We will also explore relief sculpting and printmaking.

### INTRO TO 2D

Grades: 10-12

One Semester

.5 Credit

Elective

**Prerequisite:** Art Basics or Instructor Consent

This class is designed to further explore two-dimensional art processes such as drawing and painting. Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the semester progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of the semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

Students will continue to explore and refine the process of creating art using a variety of dry and wet media. Materials include: pencil, chalk, charcoal, oil and soft pastels, pen and ink, colored pencils, watercolor and acrylic paint. Drawing and painting projects will be completed throughout the semester to help students determine future art classes to be taken.

### DRAWING I

Grades: 10-12

One Semester

.5 Credit

Elective

**Prerequisite:** Intro to 2D or Instructor Consent

This class is designed to further explore drawing processes. Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the semester progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of the semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

Students will continue to explore and refine the process of creating art using pencil, chalk, charcoal, oil and soft pastels, pen and ink, and colored pencils. This course is strictly for drawing. There may be opportunities to work with mixed media at times, however, the focus is becoming a stronger drawer.

## **PAINTING I**

Grades: 10-12

One Semester

.5 Credit

Elective

**Prerequisite:** Intro to 2D or Instructor Consent

This class is designed to further explore painting processes. Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the semester progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of the semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

Students will continue to explore and refine the process of creating art using watercolor and acrylic paints. Students will also explore the use of oil paints. This course is strictly for painting. There may be opportunities to work with mixed media at times, however, the focus is becoming a stronger painter.

## **DRAWING II**

Grades: 11-12

One Semester

.5 Credit

Elective

**Prerequisite:** Drawing I or Instructor Consent

This class is designed to further explore drawing processes. Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the semester progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of the semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

Students will continue to explore and refine the process of creating art using pencil, chalk, charcoal, oil and soft pastels, pen and ink, and colored pencils. This course is a higher-level advanced drawing class. Students are expected to be self-motivated and demonstrate the ability to work independently at times. Students will have some freedom to research, plan and produce drawings of their own. This course is strictly for drawing. There may be opportunities to work with mixed media, however, the focus is becoming a stronger drawer.

## **PAINTING II**

Grades: 11-12

One Semester

.5 Credit

Elective

**Prerequisite:** Painting I or Instructor Consent

This class is designed to further explore painting processes. Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the semester progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of the semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

Students will continue to explore and refine the process of creating art using watercolor, acrylic and oil paints. This course is a higher-level advanced painting class. Students are expected to be self-motivated and demonstrate the ability to work independently at times. Students will have some freedom to research, plan and produce paintings of their own. This course is strictly for painting. There may be opportunities to work with mixed media, however, the focus is becoming a stronger painter.

## **INTRO TO PHOTOGRAPHY**

Grades: 10-12

One Year

1.0 Credit

Elective

**Prerequisite:** Art Basics or Instructor Consent

This is an introductory course designed to explore film photography. Students will learn the anatomy of a standard SLR 35mm film camera and begin to capture still photography using black and white film. Students will also learn their way around a working darkroom and be expected to demonstrate the ability to develop and enlarge the images they capture.

Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the school year progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of the semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

## DIGITAL PHOTOGRAPHY

Grades: 11-12

One Year

1.0 Credit

Elective

**Prerequisite:** Intro to Photography or Instructor Consent

This course is designed to build off of the Intro to Photography course. Students will move from a standard SLR 35mm film camera to a digital SLR 35mm camera. Students will then work with their photograph in a digital format within the computer program Adobe Photoshop. Students will learn the ins and outs of manipulating their photographs to enhance composition, lighting, and other photographic concepts.

Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the school year progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of the semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

## STUDIO PHOTOGRAPHY

Grade: 12

One Year

1.0 Credit

Elective

**Prerequisite:** Digital Photography or Instructor Consent

This class is the most advanced photography course offered and is for students who want to continue to pursue a special interest in photography. Students are expected to be self-motivated and demonstrate the ability to work independently. Students will complete written project proposal forms and self-evaluations for each photo shoot completed. They will also expand their critical and creative thinking skills by creating and managing a working portfolio containing all of their projects in chronological order.

Students will be allowed to work with either the standard SLR 35mm film camera, a digital SLR 35mm camera, or both.

Lastly, students enrolled in this course will be in their Senior year. The Studio Photography Final will be to hold an art gallery style event at WBHS towards the end of fourth quarter. Work to be displayed can range from any of the photography courses taken at WBHS.

## INTRO TO 3D

Grades: 10-12

One Semester

.5 Credit

Elective

**Prerequisite:** Art Basics or Instructor Consent

This class is designed to explore a wide variety of three-dimensional art processes. Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the semester progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of the semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

Students will explore the process of creating art using a variety of materials which include: clay, wire, found objects, stone, wood, plaster and metals. Students will create functional and non-functional sculptures. Ceramic and other 3-D projects will be completed throughout the semester to help students determine interests in future art courses.

## CERAMICS I

Grades: 10-12

One Semester

.5 Credit

Elective

**Prerequisite:** Intro to 3D or Instructor Consent

This class is designed to further explore ceramic processes. Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the semester progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of the semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

Students will continue to explore and refine the process of creating art using various types of clay. Students will produce functional and non-functional pieces. There will be a strong focus on hand building methods including coil and slab construction and slump and slip molds. Students will work with ceramics glazes for each piece they create. Students will have some limited time to work with the potter's wheel. This course is strictly for ceramics. There may be opportunities to work with mixed media at times, however, the focus is becoming a stronger ceramic artist.

## **3D DESIGN I**

Grades: 10-12                          One Semester                          .5 Credit                          Elective

**Prerequisite:** Intro to 3D or Instructor Consent

This class is designed to further explore three-dimensional art processes such as sculpture, art metals and jewelry making. Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the semester progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of the semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

Students will continue to create three-dimensional pieces of art outside of the ceramics medium. This course will use a variety of materials which include: wire, found objects, stone, wood, plaster and metals. Students will create functional and non-functional sculptures. This course is strictly designed for all sculpture processes except ceramics. There may be opportunities to work with mixed media at times, however, the focus is becoming a stronger sculptor.

## **CERAMICS II**

Grades: 11-12                          One Semester                          .5 Credit                          Elective

**Prerequisite:** Ceramics I or Instructor Consent

This class is designed to further explore ceramic processes. Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the semester progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of the semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

Students will continue to explore and refine the process of creating art using various types of clay. This course will allow the students to gain experience on the potter's wheel. While the potter's wheel is the main focus of this class, students are still able work with hand building methods including coil and slab construction and slump and slip molds. Students will produce functional and non-functional pieces. Students will also continue to work with ceramics glazes and may begin to produce non-traditional glazes for their projects. This course is strictly for ceramics. There may be opportunities to work with mixed media at times, however, the focus is becoming a stronger ceramic artist.

## **3D DESIGN II**

Grades: 11-12                          One Semester                          .5 Credit                          Elective

**Prerequisite:** 3D Design I or Instructor Consent

This class is designed to further explore three-dimensional art processes such as sculpture, art metals and jewelry making. Students will learn the four foundations of the art experience: creating art, appreciating art, art history, and art criticism. Students will create a portfolio that contains all of their work as the semester progresses to document their growth and mastery of new techniques. This portfolio will be evaluated at the end of the semester. Students will also increase their critical thinking skills by completing a written self-evaluation for each project.

Students will continue to create three-dimensional pieces of art outside of the ceramics medium. This course will use a variety of materials which include: wire, found objects, stone, wood, plaster and metals. Students will create functional and non-functional sculptures. This course is a higher level advanced sculpture class. Students are expected to be self-motivated and demonstrate the ability to work independently at times. Students will have some freedom to research, plan and produce three-dimensional projects of their own. This course is strictly for non-ceramic sculpting. There may be opportunities to work with mixed media, however, the focus is becoming a stronger sculptor.

## **STUDIO ART**

Grades: 11-12                  One Semester                  .5 Credit                  Elective

**Prerequisite:** Either Drawing II, Painting II, Ceramics II, 3D Design II or Instructor Consent

This class is for advanced art students who want to pursue a special interest in Art and dedicate themselves to in-depth complex projects. Students are expected to be self-motivated and demonstrate the ability to work independently.

Students will complete written project proposal forms and self-evaluations for each project completed. They will also expand their critical and creative thinking skills by creating and managing a working portfolio containing all of their projects in chronological order.

Students will decide their artistic focus for the course within the first week of the semester. Possible focuses include: Drawing, Painting, Ceramics, Sculpture and Jewelry. Students will stay within their chosen focus for the duration of the semester unless a specific project calls for the use of mixed media.

## **ADVANCED STUDIO ART**

Grade: 12                  One Semester                  .5 Credit                  Elective

**Prerequisite:** Instructor Consent and Studio Art

This class is for advanced art students who want to continue to pursue a special interest in Art and dedicate themselves to in-depth complex projects. Students are expected to be self-motivated and demonstrate the ability to work independently. Students will complete written project proposal forms and self-evaluations for each project completed. They will also expand their critical and creative thinking skills by creating and managing a working portfolio containing all of their projects in chronological order.

Students will decide their artistic focus for the course within the first week of the semester. Possible focuses include: Drawing, Painting, Ceramics, Sculpture and Jewelry. Students will stay within their chosen focus for the duration of the semester unless a specific project calls for the use of mixed media. When students are determining their focus and media, they need to be specific within the media chosen. For example, if a student chooses to focus on painting, they will also choose a specific type of paint (watercolor, acrylic or oil) to work with for the semester.

## **MASTER STUDIO ART**

Grade: 12                  One Semester                  .5 Credit                  Elective

**Prerequisite:** Instructor Consent and Advanced Studio Art

This class is the most advanced art class offered and is for students who want to continue to pursue a special interest in Art. Students must dedicate themselves to in-depth complex projects. Students are expected to be self-motivated and demonstrate the ability to work independently. Students will complete written project proposal forms and self-evaluations for each project completed. They will also expand their critical and creative thinking skills by creating and managing a working portfolio containing all of their projects in chronological order.

Students will decide their artistic focus for the course within the first week of the semester. Possible focuses include: Drawing, Painting, Ceramics, Sculpture and Jewelry. Students will stay within their chosen focus for the duration of the semester unless a specific project calls for the use of mixed media. When students are determining their focus and media, they need to be specific within the media chosen. For example, if a student chooses to focus on painting, they will also choose a specific type of paint (watercolor, acrylic or oil) to work with for the semester. Students will also be expected to choose a specific style and subject for their art. For example: Paint, Oil, Human Figure/Portraits; Paint, Watercolor, Landscapes; Ceramics, Potter's Wheel, Functional Objects.

Lastly, students enrolled in this course will be in their final semester of their Senior year. The Master Studio Art Final will be to hold an art gallery style event at WBHS. Work to be displayed can range from any high school year. However, the majority of the art on showcase should have been produced in your Studio Art, Advanced Studio Art and Master Studio Art Courses.

## BUSINESS AND INFORMATION TECHNOLOGY DEPARTMENT

### COMPUTER APPLICATIONS

Grades: 9-12                          One Year                          1.0 Credit                          Elective

**Prerequisite:** None

This course is designed to give the student an understanding of the concepts and skills needed in our technological world. Students will learn how to use spreadsheets, databases, presentation software, as well as desktop publishing and advanced word processing concepts using Microsoft Office. Microsoft Office is found in business as well as at college universities. Students will receive an Office 365 account so that they can use the cloud based version of Office. This class is for any student who would like to learn various computer applications as well as be prepared for college or the work force. This class is highly recommended by graduates of Williams Bay High School.

### ACCOUNTING

Grades: 10-12                          One Semester                          0.5 Credit                          Elective

**Prerequisite:** None

The student will learn the accounting procedures for a sole proprietor, partnership, and corporation. A partnership simulation will give students hands on experience and knowledge of accounting. The student will learn how to use the computer to keep accounting records. Accounting is recommended for students considering a career in business, accounting or in finance.

### PERSONAL FINANCE I

Grades: 11-12                          One Semester                          0.5 Credit                          Required For Class of 2020

This course is designed to help the student understand how to manage money. Students will learn how choices influence occupational options and future earning potential. Topics will include: career exploration, preparing resumes, employment forms, benefits and laws, using banks and credit unions, budgeting, saving, and using credit. Recommendation is to take the class senior year.

### PERSONAL FINANCE II

Grades: 11-12                          One Semester                          0.5 Credit                          Elective

This course will continue where Personal Finance I left off. It will focus on helping students manage their financial future. Topics will include: filling out federal and state tax forms, investing in the stock market, purchasing insurance, buying cars and homes, renting, identity theft, student loans, and retirement. Students will also compete in a Stock Market Game and participate in the Budget Challenge.

### DESKTOP PUBLISHING

Grades: 9-12                          One Year                          1.0 Credit                          Elective

**Prerequisite:** None (Computer Applications Recommended)

This course is designed to introduce the student to the basic layout, design, and terminology used in desktop publishing. The course will teach the student how to properly layout publications such as newsletters, brochures, posters, business cards, and letterheads. Students will produce projects that are used for various school functions. Students will also learn how to use the digital camera and scanner. During second semester, time will be spent on learning how to manipulate photos using Photoshop. Students will create collages, CD covers, placemats, and other photo documents.

### WEB DESIGN AND MULTIMEDIA APPLICATIONS

Grades: 9-12                          One Year                          1.0 Credit                          Elective

**Prerequisite:** None (Desktop Publishing Recommended)

First semester is designed for students who are interested in learning how to create and manage professional looking websites. Web design will be taught using Adobe Dreamweaver and Photoshop which are industry standards for designing and maintaining a site. Time will also be spent creating sites online using websites like Google Sites, Wix, and Weebly. Second semester will focus on other multimedia and computer applications including a unit on editing video. Time will be spent exploring and learning about various free Web 2.0 tools like Audacity, Animoto, Kizoa, and Prezi.

## ENGLISH DEPARTMENT

---

### ENGLISH 9

Grade: 9	One Year	1.0 Credit	Required*
----------	----------	------------	-----------

English 9 is designed to enable students to maximize their language arts skills. Emphasis is placed on vocabulary, writing, grammar, and literature. Grammar and usage are taught as discrete skills and in writing assignments. Students are exposed to a number of writing forms, including comparison/contrast, essays, descriptive paragraphs, persuasive essays, and literary responses. Literature study includes short stories, novels, and plays. Students will read short stories, *Night*, *12 Angry Men*, *Of Mice and Men*, and *Romeo and Juliet*. Non-fiction works will also be read and analyzed. Vocabulary and spelling mastery are an integral part of the course.

### ENGLISH 9 HONORS

Grade: 9	One Year	1.0 Credit	Required*
----------	----------	------------	-----------

**Prerequisite: Consent of English 8 instructor**

This challenging course is designed to prepare students for the rigor of future honors courses within the English department and eventually Advanced Placement English. Students will read the same titles that students in regular English 9 read, but students in this course will supplement those readings with additional text sets. Students in this course will also be expected to analyze the literature at a more complex level. Students in this course will continue to refine their writing skills by writing across a variety of genres. Students will continue to focus on close reading skills, grammar, and vocabulary development. **Summer reading is required.**

### ENGLISH 10-AMERICAN LITERATURE

Grade: 10	One Year	1.0 Credit	Required*
-----------	----------	------------	-----------

Reading and learning about American literature is synonymous with understanding the history and culture of a nation that has undergone dramatic social, economic, and cultural change in its relatively short history. This course is a survey of the literature of America and the people who made it, from its earliest days to the present. Students will learn about the country's major literary movements and the authors who have contributed significantly to the development of American literature in its different aspects. The course will also focus on close reading skills, analytical writing skills, and direct grammar/vocabulary development.

### ENGLISH 10 HONORS-AMERICAN LITERATURE

Grade: 10	One Year	1.0 Credit	Required*
-----------	----------	------------	-----------

**Prerequisite: B average in Honors English 9, 'A' average in English 9 or consent of instructor.**

Like the regular English 10 course, this course focuses on the diverse scope of American literature from pre-Columbian times to the present. This course, though, is designed to challenge students to analyze the literature in a more sophisticated way and to write with greater complexity. Students will be expected to read more outside of class so that class time can be devoted to analysis and discussion. This course is intended to prepare students for future honors courses in the English department and eventually Advanced Placement English. The course will consider a wide range of questions and issues, including the ways in which American writers across this period use literary innovation to represent and respond to issues such as modernization and urbanization, the changing shape of racial, ethnic, and gender relations, multiple world wars, the emergence of the American counterculture, and the increasing technological saturation of American life. The course will also focus on close reading skills, analytical writing skills, and grammar/vocabulary development. **Summer reading and writing is required.**

### ENGLISH 11 - BRITISH LITERATURE

Grade: 11	One Year	1.0 Credit	Required*
-----------	----------	------------	-----------

This course focuses on the study of British literature, incorporating reading comprehension, research, writing, listening, and speaking skills. Course study will include a variety of genres within British literature, from Anglo-Saxon to modern. Literary study will be infused with historical applications for a better understanding of the social and historical context of the readings. Students will enhance their vocabulary through direct instruction. Composition in all genres is a major component; grammar, mechanics, and usage will be another feature of the course. ACT test-taking strategies and practice is built in as needed.

## **ENGLISH 11 HONORS - BRITISH LITERATURE**

Grade: 11	One Year	1.0 Credit	Required*
-----------	----------	------------	-----------

**Prerequisite:** 'B' average in Honors English 10, 'A' average in regular English 10, or consent of instructor.

This is a challenging course. Students are expected to devote time and effort in order to be successful. This class serves as a prerequisite to Advanced Placement English. Students who enroll in this course should be able to work independently as they progress through the rigorous texts and concepts. This course focuses on the study of British literature, incorporating reading comprehension, research, writing, listening, and speaking skills. Course study will include a variety of genres within British literature, from Anglo-Saxon to modern. Literary study will be infused with historical applications for a better understanding of the social and historical context of the readings. Students will enhance their vocabulary through direct instruction. Composition in all genres is a major component of this course, as well as development of analytical and critical thinking skills. Students build on their grammar, usage, and mechanics skills with in-depth study of sentence analysis and structure, agreement, and punctuation. **Summer reading is required.**

## **ENGLISH 12-WORLD LITERATURE**

Grade: 12	One Year	1.0 Credit	Required*
-----------	----------	------------	-----------

This survey course will explore literature from around the world. Stories, poems, plays, and novels will be read and discussed. The course will explore ancient and modern works from some of the most famous authors throughout history and the influence their works have had and continue to have on the world. Students will be required to read critically and write analytically. Vocabulary and grammar will be ongoing throughout the year.

## **ADVANCED PLACEMENT ENGLISH**

Grade: 12	One Year	1.0 Credit	Required*
-----------	----------	------------	-----------

**Prerequisite:** English 11 Honors and approval of course instructor.

Advanced Placement English Literature and Composition is intended to provide the equivalent in content and difficulty of a college-level introductory English course. Students in this course will further their understanding of both literary analysis and critical writing skills. Students must be familiar with fiction, poetry, and drama spanning five centuries; therefore, AP students must be highly motivated and self-sufficient. Students must read deliberately and thoroughly, both in class and at home. In order to provide students with both depth and breadth, students are required to read a novel during the summer and additional texts during the school year. Either World Literature or AP English is required in Grade 12 in order to meet the four-year district requirement in English. **Summer reading is required.**

## **COLLEGE PREP READING AND WRITING**

Grades: 10-12	One Year	1.0 Credit	Elective
---------------	----------	------------	----------

**Prerequisite:** Sophomore standing or higher

This class is designed for college-bound sophomores, juniors and seniors. Students will learn and practice strategies for reading both fiction and non-fiction texts. Students will write a variety of essays, including those in which the focus is on cause and effect, problem-solution, argumentation, and comparison and contrast. This class also includes units on critical thinking and critical writing. This class is limited to 15 students. This is a challenging, not remedial, course.

## **CREATIVE WRITING**

Grades: 10-12	One Year	1.0 Credit	Elective
---------------	----------	------------	----------

**Prerequisite:** None

This course is specifically designed for students who have an avid interest in expressing themselves creatively through prose and poetry. Emphasis is placed on the ability of the student to work independently in a "workshop" atmosphere, as well as on sharing and editing the writing samples of others. Creative writing allows students to pursue and develop individual creative writing skills more fully than is possible within the general English curriculum. The goal of the course is to improve student writing as well as encourage students work toward entering their work in various writing contests. This course includes children's literature, narrative, poetry, memoir, short story and newspaper writing. This class is limited to 15 students.

## FAMILY AND CONSUMER EDUCATION DEPARTMENT

---

### INTRO TO ADULT LIFE

Grades: 9-12                          One Semester                          0.5 Credit                          Elective

**Prerequisite:** None

This is a comprehensive course covering a wide range of Family and Consumer Education topics. Areas studied include food preparation skills, work of the family, banking/money management, crocheting or sewing, and a large portion on parenting. The parenting unit includes a section on pregnancy and the use of the Real Care (computerized) Baby or an alternative paper. There will be 5-9 food labs in the semester.

### NUTRITION AND THE KITCHEN

Grades: 9-12                          One Semester                          0.5 Credit                          Elective

**Prerequisite:** None

Increase your confidence in the kitchen by preparing a variety of recipes. Topics include nutrition, along with other food related issues such as vegetarian choices, food allergies, and where our food comes from. This class may also plan, prepare, and serve one dinner for the faculty during parent/teacher conferences. Food labs will be held about every two weeks.

### FOODS AROUND THE WORLD

Grades: 9-12                          One Semester                          0.5 Credit                          Elective

**Prerequisite:** None

Are you interesting in travelling? Get an idea about the world through food, cultures, language, geography, and climates of several different countries. Students will get to cook with new fruits, vegetables, and spices, so be ready to explore new flavors and textures! Students will have many choices of recipes to choose from and some flexibility to change things in those recipes. Labs will be held once every two weeks.

### MOVING OUT

Grades: 11-12                          One Semester                          0.5 Credit                          Elective

**Prerequisite:** Grades 11-12

Are you starting to think about moving out on your own? This class will help you review your own level of wellness (physical, emotional, and social health), along with finding a home, stress/time management, communication/relationship skills, insurance, managing your money, and cooking with leftover ingredients. This class includes reading of chapters from Hal Urban's *Life's Greatest Lessons*. There will be 5-9 food labs in the semester.

### FASHION, NEEDLE ARTS, AND MORE

Grades: 9-12                          One Semester                          0.5 Credit                          Elective

**Prerequisite:** None

This is a project-based class that is designed for you to learn how to work with a sewing machine to make your own projects, ranging from pillowcases for machine basics, to pajama pants, and up to even capes, vests or special costume pieces. It's up to you! Learn about picking fabrics, how to read/work with a pattern, and what makes brand name clothes so expensive.

Don't like the sewing machine? Take this class and focus on the Needle Arts! Learn about knitting, crocheting, cross stitch, and/or embroidery! Learn to make beautiful gifts, warm and cozies, and how to add that extra touch of flair to your projects.

## **PROSTART I**

Grades: 9-12	One Year	1.0 Credit	Elective
--------------	----------	------------	----------

**Prerequisite:** None

This class goes back to the basics of cooking, but on a professional kitchen level. The class will be working in depth with cooking terms, knife skills and restaurant management. This class is designed to prepare students to work in a professional kitchen and prepare them for the possibility of going to culinary school. Labs will be done about once every two weeks. This class may also plan, prepare, and serve one-two dinners for the faculty during parent/teacher conferences.

## **PROSTART II**

Grades: 10-12	One Year	1.0 Credit	Elective
---------------	----------	------------	----------

**Prerequisite:** ProStart 1 with a C or better

This class takes the skills learned in ProStart I to the next level. Students will have the opportunity to build their culinary skills as they learn more about building complex dishes, baking, and global cuisine, while also learning how to price, portion, and market food. Food labs held once every two weeks.

## **BAKING AND PASTRY**

Grades: 10-12	One Semester	0.5 credit	Elective
---------------	--------------	------------	----------

**Prerequisite:** None

This class is focused strictly on the science behind baking and how to make different baked goods along with cake decorating, plating and presentation. Students will also learn how to market and cost out the foods that they create, while learning about professional chefs, and careers in the area. Food labs will be held once or twice every other week.

## **FOOD SCIENCE**

Grades: 9-12	One Semester	0.5 credit	Elective
--------------	--------------	------------	----------

**Prerequisite:** None

Are you interested in food? Are you interested in science? Combine both interests in an exploration of how food works on a chemical level and how it works with your nutrition. Look at the basics of chemistry and biology as you learn about food and cooking. Food labs will be held about once every two weeks.

# INDUSTRIAL TECHNOLOGY DEPARTMENT

## INTRODUCTION TO TECHNOLOGY EDUCATION

Grades: 9-12                          One Semester                          0.5 Credit                          Elective

**Prerequisite:** None

This course is designed to give the students a wide variety of problem-solving experiences. The following types of problems may be included: structure, vehicle, mechanisms, architectural, and environmental. Most of the problems will be assigned; however, the students will occasionally have a choice of problems. The problems will vary in length from one class period to four weeks. Some of the solutions will require some drafting, research and background information, while other solutions will be spontaneous. Student's will be exploring several different career opportunities, as well as exploring the area of woods and metalworking.

## WOODWORKING I

Grades: 9-12                          One Semester                          0.5 Credit                          Elective

**Prerequisite:** 10<sup>th</sup>-12<sup>th</sup> grade or freshmen who have taken Introduction to Technology with a grade of "C" or above

This course will introduce students to the industry of woodworking. This is a one-semester class that will teach students how to safely operate tools and machinery as well as learn the basics of woodworking. Students will be constructing a series of wood projects that highlight different skills and techniques.

**Note:** There is a \$25.00 material fee for all students.

## ADVANCED WOODWORKING

Grades: 10-12                          One Year                          1.0 Credit                          Elective

**Prerequisite:** Woodworking I with a grade of "C" or above or consent of instructor.

This course is designed to give the student practical experience in the woodworking field. There will be a variety of required and elective projects and assignments. **Note:** There is a \$25.00 material fee for all students.

## BUILDING CONSTRUCTION

Grades: 9-12                          One Semester                          0.5 Credit                          Elective

**Prerequisite:** 10<sup>th</sup>-12<sup>th</sup> grade or freshmen who have taken Introduction to Technology with a grade of "C" or above or consent of instructor.

This course will explore the various areas of the building trades, industry, and related home maintenance activities. This is a hands-on lab class whereby students will get a chance to gain an understanding and feeling for each of the building trades. This class will help you decide on which trade you may want to pursue as a career or will give you the knowledge needed to be a homeowner. This course is recommended for students who are interested in owning a house or working in the construction trades.

## METALS I

Grades: 9-12                          One Semester                          0.5 Credit                          Elective

**Prerequisite:** 10<sup>th</sup>-12<sup>th</sup> grade or freshmen who have taken Introduction to Technology with a grade of "C" or above or have consent from the instructor

This course is to introduce students to the field of metalworking. It is intended to give the student practical hands on experience. There will be a variety of required projects and assignments.

**Note:** All metal working classes have a minimum fee of \$25.00

## ADVANCED METALS

Grades: 10-12                          One Year                          1.0 Credit                          Elective

**Prerequisite:** Metals I with a grade of "C" or better.

This course is designed to give the student practical experience in the metalworking field that builds from and extends what has been learned in the Metals I class. There will be a variety of required and elective projects and assignments.

**Note:** All metal working classes have a minimum fee of \$25.00

## **MECHANICAL AND ARCHITECTURAL DRAFTING**

Grades: 9-12

One Semester

0.5 Credit

Elective

**Prerequisite:** None

Students will be introduced to the field of drafting. Students will create a variety of drawings using both CAD and other 3D modeling software. Students will also be making models and prototypes of some of their drawings.

## **SMALL ENGINES**

Grades: 10-12

One Semester

0.5 Credit

Elective

**Prerequisite:** Intro to Technology with a grade of "C" or above.

This course will cover all areas of the small 2 and 4 stroke engine. Emphasis will be on the tear down and assembly of each type (style) of engine. The small engines class is a great introduction to the field of automotive mechanics. This course is recommended for all students interested in hands-on learning activities.

## **ELEMENTS OF ENGINEERING**

Grades: 10-12

One Semester

0.5 Credit

Elective

**Prerequisite:** Intro to Technology. Strong math and science skills are suggested.

This Elements of Engineering course is designed to teach the design process. The course will expose students to a systematic way of approaching the design process. Using this system, students will be analyzing how objects are created. They will then be asked to use the design process to develop innovative ideas to improve the design. This course is open to any student in grades 10-12; however, students will need to have a good understanding of math and science to be successful in this course.

# MATHEMATICS DEPARTMENT

---

## ALGEBRA I

Grades: 8-12

One Year

1.0 Credit

Elective

**Prerequisite:** 8 Recommendation of previous math instructors, based on previous math grades, standardized test scores, and other placement criteria.

This course helps students learn the basic structure of algebra in the real number system. Various algebraic concepts and techniques are studied to allow the student to grow in his or her understanding of the nature of mathematics in his or her ability to reason logically.

Algebraic topics will include a focus on problem solving, solving equations, work with proportions, solving systems of equations, graphing, slope and rate of change, inequalities, work with functions and quadratic equations.

## GEOMETRY

Grades: 9-12

One Year

1.0 Credit

Elective

**Prerequisite:** Algebra I

This course consists of plane and solid geometry stressing the concepts of deductive reasoning, proof, space geometry and creative thinking. Topics covered include: angle relationships, inductive reasoning, deductive reasoning, proof, parallel lines, congruent triangles, quadrilaterals, proportion and similarity, right triangles, triangle trigonometry, circles, and areas of polygons

## ALGEBRA II

Grades: 10-12

One Year

1.0 Credit

Elective

**Prerequisite:** Algebra I and Geometry

This course extends the topics presented in Algebra I and provides advanced skills in algebraic operations. Topics covered include: equations and inequalities, linear and quadratic function and relations, matrices, conic sections, exponential and logarithmic relations, and trigonometric functions. Work with sequences, series, probability, and statistics is included as time permits.

## ADVANCED MATH

Grades: 11-12

One Year

1.0 Credit

Elective

**Prerequisite:** Algebra I, Geometry, and Algebra II

This course presents an Algebra review, an introduction to discrete mathematics, and trigonometry. Topics covered include: linear relations and functions, systems of linear equations and inequalities, polynomial and rational functions, sequences and series, combinatorics, probability, statistics, and the study of trigonometry and its applications.

## PRE-CALCULUS

Grades: 11-12

One Year

1.0 Credit

Elective

**Prerequisite:** Algebra I, Geometry, and Algebra II. To be successful in Pre-Calculus, a student should have maintained a minimum of a B average in Algebra I, Geometry, and Algebra II.

This course presents a complete course in pre-calculus topics. Topics covered include: quadratic equations, coordinate geometry, polynomial algebra, theory of equations, inequalities, functions, the study of trigonometry and its applications, statistics, polar coordinates and complex numbers, statistics, probability, and introductory calculus.

## **AP CALCULUS**

Grade: 12	One Year	1.0 Credit	Elective
-----------	----------	------------	----------

**Prerequisite:** Completion of Pre-Calculus

While the teaching of calculus skills is the major focus of the class, students are also exposed to the historical origins and cultural contributions of calculus, including equity issues regarding women and minorities in mathematics and the importance of a strong mathematical background in many career choices. Calculus concepts are explored from both a graphical and a numerical perspective with instruction based on calculator and computer technology.

The Advanced Placement (AP) Calculus track will extend the problem-solving process of the regular course to the advanced level requirement for AP exam preparation. Students selecting this route will complete AP problem sets and have additional contact with the instructor to ensure adequate preparation for the AP exam. AP track students will earn the Calculus course grade based on the regular curriculum only. In addition, students will have the option of taking the AP Calculus exam offered by the College Board in May.

## **INTRODUCTION TO COMPUTER SCIENCE**

Grades: 9-12	One Semester	0.5 Credit	Elective
--------------	--------------	------------	----------

**Prerequisite:** None

This will be an introductory course that teaches students applicable computer science skills through Processing. With a focus on helping students develop problem-solving and computational thinking skills, students come away both with a knowledge and the conceptual understanding needed to learn new languages and lays the foundation for understanding the principles and practices of computer science.

## **INTRODUCTION TO CODING WITH JAVA**

Grades: 9-12	One Semester	0.5 Credit	Elective
--------------	--------------	------------	----------

**Prerequisite:** Intro to Computer Science

Coding uses a system of words, symbols, or letters to send a message, which become the instructions for a computer program. These instructions written by the programmer are called source code. Without these important instructions, a computer does not function. This course is designed to be an introduction to the fundamentals of computer programming with Java, one of the most popular and user-friendly computer languages. Students will design, write and debug computer programs in Java.

## MUSIC DEPARTMENT

### SENIOR BAND

Grades: 9-12                          One Year                          1.0 Credit                          Elective

**Prerequisite:** Consent of instructor and at least one semester of applied instruction on instrument.

Through the careful preparation and performance of meaningful and significant literature written and arranged for wind and percussion instruments, students will gain a higher understanding and deep appreciation of music as a viable means of artistic expression. It is demanded that students work continuously to develop their technical proficiency on each of their respective instruments in order to further the ensemble as a collective whole. In addition to the band's normal curriculum, the band also lends itself to perform and play a supporting role at various school-related events such as athletic events and commencement. The band also marches in at least one parade during the school year. Lessons are also required. Several additional playing opportunities will be made available to any students interested: Honors bands, Solo & Ensemble Festival, etc.

### CONCERT CHOIR

Grades: 9-12                          One Year                          1.0 Credit                          Elective

**Prerequisite:** Consent of instructor

Students in concert choir will perform a variety of memorized music while learning ensemble skills such as balance, intonation, and four-part singing. Students are required to learn music theory, vocal technique, and expand sight-singing skills. In addition to classroom rehearsals, members are expected to participate in the fall pops concert, winter concert, annual choral festival, and spring/collage concert. Opportunities are also available for students wishing to perform solos or small group ensembles at the Wisconsin School Music Association's annual solo and ensemble festival. Lessons are required and additional opportunities are available.

### ADVANCED MUSICIANSHIP I

Grades: 9-12                          One Year                          1.0 Credit                          Elective

**Prerequisite:** Overall GPA 2.5 or higher; must be enrolled in Sr. Band and/or Concert Choir. If student is enrolled in both band and choir; he/she may choose one or both options. Student must have consent of the instructor.

The advanced musicianship courses are intended for students who are seriously considering pursuing a college degree in music, or for highly motivated students who want a more in-depth study of music. It is important to note that these courses are not intended to be used as a determining factor in a student's future success in music, or to increase or decrease the potential for admission into a collegiate-level music school. A student does not have to enroll in, pass, or complete these courses in order to choose to pursue music as a college major. However, the student who successfully completes the coursework will most likely be better equipped to handle the demands of any collegiate music degree program.

A significant portion of the coursework must be done independently and online. Students must also attend meetings with the Williams Bay High School music department teachers after school.

### ADVANCED MUSICIANSHIP II

Grades: 10-12                          One Year                          1.0 Credit                          Elective

**Prerequisite:** Successful completion of Advanced Musicianship I

This course is a continuation of Advanced Musicianship I. Students continue to develop and hone their musical skills.

### VOCAL JAZZ

Grades: 9-12                          One Year                          0.5 credit                          Elective

**Prerequisite:** Consent of the instructor and audition

Vocal jazz is the premiere, 24-member high school vocal ensemble at Williams Bay. Members are required to learn a variety of challenging, advanced vocal repertoire with focuses on vocal improvisation, jazz harmony, and acapella singing. The group will perform at the fall pops concert, winter concert, WSMA solo and ensemble festival, annual choral festival, and spring/collage concert. Vocal jazz meets Monday and Wednesday mornings before school, and excellent attendance is required. Students are highly encouraged to enroll in concert choir if they wish to participate in vocal jazz.

## JAZZ ENSEMBLE

Grades 9-12	One Year	0.5 credit	Elective
-------------	----------	------------	----------

**Prerequisite:** Consent of the instructor and/or be currently enrolled in band

Through the careful preparation and performance of meaningful and significant literature written and arranged for jazz ensemble, students will gain a higher understanding and deep appreciation of jazz music as a viable means of artistic expression. It is demanded that students work continuously to develop their technical proficiency on each of their respective instruments in order to further the ensemble as a collective whole. Several additional playing opportunities will be made available to any students interested: Honor bands, Solo & Ensemble Festival, etc.

## PHYSICAL EDUCATION/HEALTH DEPARTMENT

---

### PHYSICAL EDUCATION 9/10

Grade: 9-10	One Semester	0.5 Credit	Required
-------------	--------------	------------	----------

Skills are stressed at this level. Students will learn various fundamentals and rules of a variety of lifestyle sports, team sports, weight training and aerobic activities. Badminton, pickleball, flag football, team handball, as well as individual activities such as rollerblading and physical fitness/wellness are taught.

The FitnessGram test assesses health-related fitness components: aerobic capacity, body composition, muscular strength, endurance, and flexibility. Activity assessments are included for step or minute challenges, physical activity behaviors, and overall activity levels to provide teachers with a variety of ways to promote physical activity to students. The FitnessGram will be administered in pre- and post- test form. This class meets five days a week for one semester.

### HEALTH

Grade: 10	One Semester	0.5 Credit	Required
-----------	--------------	------------	----------

It provides a comprehensive, sequentially planned program to positively influence the knowledge, skills, attitude, and behaviors of individuals related to health. This in-depth health education program includes relevant information that will lead students to make informed decisions leading to a healthy lifestyle now and in the future. Subjects covered in this course will consist of decision making, goal setting, communication, stress management, conflict resolution, suicide awareness and prevention, consumer and community health, communicable and chronic diseases, individual growth and development, environmental health, alcohol, tobacco, and other drugs, nutrition, injury prevention, and safety. This class meets five days a week for one semester.

### TEAM SPORTS

Grades: 11-12	One Semester or One Year	0.5 or 1.0 Credit	Required
---------------	--------------------------	-------------------	----------

*Limit 1 credit per year; course may not be repeated.*

Emphasis is placed on team sports; play is for the enjoyment of the game. Lifetime activities are covered at this level, such activities include: volleyball, badminton, ultimate frisbee, rollerblading, jogging, physical fitness and wellness. This course also provides team-oriented units which include: flag football, basketball, floor hockey, team handball, softball, and soccer. This class meets five days a week.

### STRENGTH AND CONDITIONING

Grades: 11-12	One Semester or One Year	0.5 or 1.0 Credit	Required
---------------	--------------------------	-------------------	----------

**Prerequisite:** Students must have earned a B in any previous Physical Education Classes OR must be participating in a sport. Any 10th grader wishing to take Strength and Conditioning MUST receive approval from the instructor. Permission will only be granted if there is no other scheduling option for a Physical Education Class. \*Priority will be given to upperclassmen.

Whether you want to increase endurance and strength for sports or just want to reduce body fat and increase muscle tone, this class is for you. Instruction is provided to help you gain core strength, define and strengthen your muscles, reduce body fat, and improve cardio endurance. You will also learn the techniques and the systems needed to design a fitness program. Your body will thank you. Please come and learn the basics of a balanced exercise routine in a fun and challenging atmosphere. This class meets five days a week. Students are grouped based on grade level when possible. This class is limited to 30 students.

## SCIENCE DEPARTMENT

### FOUNDATIONS OF BIOLOGY

Grades 9-10	One Year	1.0 Credit	Required
-------------	----------	------------	----------

**Prerequisite:** Successful completion of Physical Science.

This course is a one-year class designed to develop practical, hands-on, problem-solving skills by utilizing a variety of activities and laboratory experiences. Foundations will introduce ideas that help students define the natural world, describe how changes in the environment influence living things, and explain how living and nonliving things are interdependent to each other. The following topics will be the focus of this course: principles of scientific methodology, ecology, biochemistry, cell structure & transport, cellular energy, cell division & specialization, genetics & biotechnology, and evolution.

Students taking this course are doing so to prepare for the course of Principles of Chemistry.

### BIOLOGY

Grades: 9-10	One Year	1.0 Credit	Required
--------------	----------	------------	----------

**Prerequisite: Completion of or currently enrolled in Algebra I; and successful completion of Physical Science.**

This course is a one-year class designed to introduce ideas that help students define the natural world, describe how changes in the environment influence living things, and explain how living and nonliving things are interdependent to each other. The following topics will be the focus of this course: principles of biology, ecology, biochemistry, cell structure & transport, cellular energy, cell division & specialization, genetics & biotechnology, and evolution & classification.

### HONORS BIOLOGY

Grades: 9-10	One Year	1.0 Credit	Required
--------------	----------	------------	----------

**Prerequisite: Student must rank in the top 25% of their class in science, completion of or currently enrolled in Algebra 1, and completed Physical Science with a C or better or probationary consent of instructor.**

This course is a one-year class designed to introduce ideas that help students define the natural world, describe how changes in the environment influence living things, and explain how living and nonliving things are interdependent to each other. The following topics will be the focus of this course: principles of biology, ecology, biochemistry, cell structure & transport, cellular energy, cell division & specialization, genetics & biochemistry, and evolution & classification. Honors biology will be a more accelerated and in-depth version of first-year biology.

### HUMAN ANATOMY AND PHYSIOLOGY

Grades: 11-12	One Year	1.0 Credit	Elective
---------------	----------	------------	----------

**Prerequisite: Successful completion of Physical Science and Biology.**

This course is a one-year class designed to provide students with an understanding of the function & regulation of the human body, as well as physiological integration of the organ systems to maintain homeostasis. This is a comprehensive survey of the human body systems focusing on interdependence as it relates to the form and function of organ systems and their structural components. Course work will include mammalian dissections to supplement written materials.

### ENVIRONMENTAL SCIENCE

Grades: 10-12	One Year	1.0 Credit	Elective
---------------	----------	------------	----------

**Prerequisite: Successful completion of Physical Science and Biology.**

This course involves a broad, integrated branch of science that draws on knowledge of biology, chemistry, physics, and earth sciences. Students will be required to gather an understanding of these areas and how they are interrelated through investigations of important environmental issues of our time. Students will have the opportunity to learn by way of field and lab activities, develop independent investigations, flesh-out concepts through data analysis, and explore environmental issues through multiple lenses.

## CHEMISTRY

Grades: 10-12                          One Year                          1.0 Credit                          Elective

**Prerequisite: B or better in Algebra I, passed Biology or probationary consent of instructor.**

This course deals with the substances making up our environment and the changes they undergo. This class includes units on atomic theory, kinetic theory, equilibrium, acids and bases, stoichiometry, reaction prediction, and chemical bonding.

## HONORS CHEMISTRY

Grades: 10-12                          One Year                          1.0 Credit                          Elective

**Prerequisite: Student must rank in the top 25% of their class in science, completed Algebra 1 with a B+ or better, completed Biology with a C or better or probationary consent of instructor.**

This course deals with the basic chemical concepts such as chemical composition, chemical changes, atomic theory, kinetic theory, equilibrium, acids and bases, chemical bonding, calorimetry, stoichiometry, and reaction prediction. Honors chemistry will be a more accelerated and in-depth version of first year chemistry.

## HONORS CHEMISTRY II

Grades: 11-12                          One Year                          1.0 Credit                          Elective

**Prerequisite: Completion of Biology with a C or better, Algebra 1 with a B or better, and Chemistry or Honors Chemistry with a B or better. Completion of Physics or Honors Physics with a B or better is also strongly recommended.**

This course is a one-year class designed for advanced eleventh and twelfth graders. It is designed to deal with more advanced topics in chemistry as well as teaching students good laboratory technique. Critical thinking and experimentation are greatly emphasized in this course.

This course has an AP Chemistry option to prepare for the AP exam. Students considering this option will need to indicate intent when they enroll in preparation for summer homework and a rigorous workload. Students wishing to earn the AP designation for the course must complete the AP Chemistry level materials and must take the AP Chemistry exam.

## AP CHEMISTRY/CHEMISTRY II

Grades: 11-12                          One Year                          1.0 Credit                          Elective

**Prerequisite: Completion of Biology with a C or better, Algebra 1 with a B or better, and Chemistry or Honors Chemistry with a B or better. Completion of Physics or Honors Physics with a B or better is also strongly recommended.**

This course is a one-year class designed for advanced eleventh and twelfth graders. It is designed to deal with more advanced topics in chemistry as well as teaching students good laboratory technique in preparation for the AP exam. Students considering this course should be prepared for summer homework and a rigorous workload. Critical thinking and experimentation are greatly emphasized in this course. Students wishing to earn the AP designation for the course must complete the AP Chemistry level materials and must take the AP Chemistry exam.

## PHYSICS

Grades: 10-12                          One Year                          1.0 Credit                          Elective

**Prerequisite: Successful completion of Biology AND either a B- or better average in Algebra I and Geometry OR a B or better in Algebra I and must take Geometry concurrently with Physics OR probationary consent of instructor.**

This course is lecture-oriented with demonstrations and labs; field trips are part of the curriculum. It is designed to study concepts in mechanics (measurement, force, and motion), waves, electricity, and forms of energy.

*\*Strong math skills are highly recommended.*

## HONORS PHYSICS

Grades: 10-12

One Year

1.0 Credit

Elective

**Prerequisite:** Top 25% of their class in Science. B+ or better average in Geometry and Algebra I OR A- or better in Algebra I and must take Geometry concurrently with Physics OR probationary consent of instructor.

This course is lecture oriented with demonstrations and labs. It is designed to study basic concepts in mechanics (measurement, force, and motion), reflection, refraction, electricity, and forms of energy. Field trips are part of the curriculum.

\*Strong math skills are highly recommended.

## AP BIOLOGY

Grades: 10-12

One Year

1.0 Credit

Elective

**Prerequisite:** Completion of Biology and Chemistry or Honors Chemistry with a GPA of 3.0 or better in each, or consent of the instructor.

This course is constructed to give the student the equivalent of a college level first-year course for biology majors. Broad topics include: molecules and cells, heredity and evolution, organisms and populations, and more. Laboratories are correlated to the topics and emphasize inquiry learning. This course is content-heavy and carries a rigorous workload; students considering this course should also be prepared for summer homework and after school labs during the year.

It is strongly recommended that students take Human Anatomy and Physiology prior to or concurrent with this course, as the College Board assumes the student has such knowledge. It is strongly recommended that students who plan to take both AP Chemistry and AP Biology take them in that order.

## SOCIAL STUDIES DEPARTMENT

### WORLD HISTORY

Grade: 9	One Year	1.0 Credit	Required*
This is a survey course designed to present an overview of World History. Areas of study will include Europe, The Middle East, The Far East, and North Africa. Emphasis is given to Ancient Greece and Rome, The Middle Ages, The Renaissance, The Age of Power & Revolution, World War I & II, and Post World War II Europe & Asia.			

### HONORS WORLD HISTORY

Grade: 9	One Year	1.0 Credit	Required*
----------	----------	------------	-----------

**Prerequisite:** Consent of Instructor

Honors World History focuses on developing students' understanding of world history from 8000 B.C.E to the present. The course will have students analyze primary and secondary sources to investigate the content of world history. Students will focus on five major themes in history: interaction between humans and the environment; development and interaction of cultures; state building, expansion, and conflict; creation, expansion, and interaction of economics systems; development and transformation of social structures.

*\*Students must take either World History or Honors World History*

### AMERICAN HISTORY

Grade: 10	One Year	1.0 Credit	Required*
-----------	----------	------------	-----------

American History is a survey course. The course is intended to give the student a general background and understanding of American History. The course will focus on five major themes: American society, American cultural integration, American expansion, American economic changes, American political ideologies, and American conflicts and resolutions.

*\*Unless taking AP US History*

### AMERICAN GOVERNMENT

Grade: 11	One Semester	0.5 Credit	Required*
-----------	--------------	------------	-----------

American Government is a one-semester course designed to explore the rudimentary aspects of federal, state, and local governments. Special attention will be given to the study of three main branches of the Federal Government and the Federal government's relationship to State and local units of government.

A basic study of the Federal Constitution will be made as well as the Bill of Rights explaining every citizen's basic rights and responsibilities granted in the Constitution.

Time will also be spent studying interest groups and the function they play in a democratic system and how every citizen can and should become actively involved in the system of participatory government in America.

*\*Unless taking AP Government and Politics*

### AP US History

Grades 11-12	One Year	1.0 Credit	Elective
--------------	----------	------------	----------

**Prerequisite:** A or B in Honors World History OR consent of instructor

This course is an advanced social studies elective for the highly-motivated student providing an opportunity to take the Advanced Placement Examination in May. By the end of the course students should be prepared to demonstrate learning at a college-level, ready to take intermediate and advanced college courses. Therefore, this course will be more difficult than other high school courses.

AP US History is a demanding chronological survey from 1500 to the present. Students will explore America's past, examining the cultural, political, geographic, economic and technological changes that have taken place and have helped shape and guide the nation

## **AP U.S. GOVERNMENT AND POLITICS**

Grades: 11-12                          One Year                          1.0 Credit                          Elective

**Prerequisite:** Consent of the instructor is required

AP U.S. Government and Politics is a college-level year-long course that not only seeks to prepare students for success on the AP exam in May, but also provide students with the political knowledge and reasoning processes to participate meaningfully and thoughtfully in discussions and debates that are currently shaping American politics and society. It is important to note that this course is not a history course; it is a political science course that studies the interconnectedness of the different parts of the American political system and the behaviors and attitudes that shape this system and are the byproducts of this system.

AP U.S. Government and Politics accomplishes these goals by framing the acquisition of political knowledge around enduring understanding and big ideas about American government and politics that can be applied to a set of disciplinary practices through the use of a set of reasoning processes. Through the development of this set of political knowledge, disciplinary practices, and reasoning processes, by the end of the course, students will be able to analyze current and historical political events like a political scientist and develop factually accurate, well-reasoned, thoughtful arguments and opinions that acknowledge and grapple with alternative political perspectives. This course will fulfill the government requirement.

## **CURRENT EVENTS**

Grades: 9-12                          Semester or Year                          0.5 or 1.0 Credit                          Elective

**Prerequisite:** None

This course will include a week-to-week on-going discussion of international, national, state, and local news events. Sources for the class will include a weekly news magazine as well as other written and audiovisual sources.

## **HISTORY THROUGH MODERN MEDIA**

Grades: 9-12                          One Semester                          0.5 Credit                          Elective

**Prerequisite:** None

This course will utilize various forms of modern media (including trade books, newspaper articles, films, and essays) to analyze significant historical events. Elements of the media will then be compared to selected primary and secondary sources to evaluate the medium's effectiveness and accuracy.

## **SOCIOLOGY**

Grades: 11-12                          One Semester                          0.5 Credit                          Elective

**Prerequisite:** None

Students will study society and social life and the causes and consequences of human behavior. Students will explore the origins of sociology, the major theoretical perspectives, culture, society roles, inequality, deviance, and social change. The course will allow students to question the obvious and understand the social forces at work in our society.

## **PSYCHOLOGY**

Grades: 10-12                          One Semester                          0.5 credit                          Elective

This course will focus on many different psychological phenomena, facts and principles. It will focus on various methods, approaches, and tests the psychologists currently use, and have used in the past. Emphasis will be placed on personality, development, learning, and motivation theories.

## **AP PSYCHOLOGY**

Grades: 10-12                          One Year                          1.0 Credit                          Elective

The purpose of AP Psychology is to introduce students to the systematic and scientific study of the behavior and mental processes of human beings and other animals. Students are exposed to the psychological facts, principles, and phenomena associated with each of the major subfields within psychology. A variety of activities, demonstrations, and projects will be provided to meet this goal of instructing scientific and empirical approaches.

## **AP HUMAN GEOGRAPHY**

Grades: 9-12

One Year

1.0 Credit

Elective

A full year course geared toward the college-bound student. AP Human Geography course is to introduce students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students learn to employ spatial concepts and landscape analysis to examine human socioeconomic organization and its environmental consequences. They also learn about the methods and tools geographers use in their research and applications. Students will interpret maps and analyze geospatial data, understand and explain the implications of associations and networks among phenomena in places, recognize and interpret the relationships among patterns and processes at different scales of analysis, define regions and evaluate the regionalization process, and characterize and analyze changing interconnections among places. Students receiving a passing score on the AP test in May will earn three college credits.

# WORLD LANGUAGES DEPARTMENT

## SPANISH I

Grades: 9-12

One Year

1.0 Credit

Elective

**Prerequisite:** C in English

Course objective: Develop listening, speaking, reading and writing skills, to be able to meet survival needs in the classroom and to react in a limited way in a social situation without complications. Students will understand and answer in oral and written form a structured question about real, personal experiences. Students will show in oral and written form some spontaneity and creative language usage in Spanish.

Program develops communicative proficiency in listening, speaking, reading and writing. A cultural strand develops inter-cultural understanding. Learning is facilitated through large and small group activities and pair work dealing with real-life discussions and student-centered dialogue.

The student text, workbook and additional practice sheets reinforce the vocabulary and grammar presented through dialogues. Videos and CDs using native speakers sharpen the student's ear and accustom them to the sound of the natural spoken language. The course follows the ACTFL guidelines. The course is organized around topics, situations and functions to personalize the grammar component.

## SPANISH II

Grades: 9-12

One Year

1.0 Credit

Elective

**Prerequisite:** Successful completion of Spanish I

This is a continuation of Spanish I. The second level text bridges from the first level to achieve a smooth transition. Early lessons incorporate important structural review in a fresh context. In the second level, composition, conversation, grammar, syntax stylistics, idioms, figurative speech, general linguistics and oral language development in cultural context is emphasized. Emphasis is also placed on original composition and conversation. The geography and history of the Spanish-speaking world is examined. Methods of instruction are identical to level one.

## SPANISH III

Grades: 10-12

One Year

1.0 Credit

Elective

**Prerequisite:** Successful completion of Spanish II with at least a C average

This class will be conducted primarily in the target language. Various texts and reading supplements will be utilized to further enhance the students' ability to speak, read, write, and understand Spanish. The class will center on the individual needs of the students and concentrate on improving their areas of weakness. The students will participate actively in oral and written forms. They will go beyond immediate events to narrate and describe in the past, present and future.

## HONORS SPANISH IV

Grades: 11-12

One Year

1.0 Credit

Elective

**Prerequisite:** Consent of instructor

This class will be conducted primarily in the target language. It will focus on sharpening listening, speaking, reading, and writing skills. Target language literature will supplement; culture and history will be interwoven into the reading and classroom instruction.

The course will also include a demonstrative report on a topic chosen by the student and approved by the instructor. It will be in the form of a written report and an oral presentation in the target language.

## AP SPANISH LANGUAGE AND CULTURE

Grade: 12

One Year

1.0 Credit

Elective

**Prerequisite:** Completion of Honors Spanish IV with at least a B

The Advanced Placement Spanish Language and Culture course is a rigorous and challenging course in which the students and teacher use Spanish, the target language, exclusively. Students must have completed the articulated sequence of courses, including Honors

Spanish IV, prior to taking this course. The course utilizes a variety of authentic materials, featuring printed and online text, such as newspapers, magazines, and literature, as well as audio and audiovisual sources, including radio broadcasts, interviews, films, and podcasts. It offers students many opportunities to demonstrate proficiency in spoken and written interpersonal and presentational communication, and culturally appropriate interpretive proficiency in understanding written and spoken communication. Students will make connections with other disciplines through the exploration of the six themes: Personal Public Identities, Science and Technology, Families and Communities, Beauty and Aesthetics, Global Challenges, and Contemporary Life. They will make comparisons of the products, practices, and perspectives within the target culture and between cultures. Ultimately, students will work toward the goal of achieving a pre-advanced level of proficiency.

This course is organized into six thematic units (as mentioned above). The themes are interconnected and are further divided into several contexts. Each unit is also constructed around several essential questions. Culture and cultural comparisons are integrated into each component of the units. The language mechanics are reviewed as needed within the framework of the thematic unit. Student advanced vocabulary will continue to grow throughout the various themes of study. Extensive practice will be given for all parts of the AP Spanish Language and Culture exam.

## ADDITIONAL COURSE OFFERINGS

---

### JUNIOR SEMINAR

Grade: 11	One Semester	0.5 Credit	Required
-----------	--------------	------------	----------

This course is designed to address to prepare students for post high school life. The students will learn important skills related to potential careers, college, and life after high school.

The course will focus on the six modules which will be presented during this semester long course. Those modules are:

#### **Module 1: Adult Life Skills**

Students will define personal values, understand individual skills, and characteristics to be a viable member of any community that grants them membership.

#### **Module 2: Post High School Choices**

This module will introduce students to the process of career decision-making, educational planning, and job searching. Topics include analyzing personal career interests, skills, values, and aptitudes; surveying and researching fields with related educational and training requirements and basic job search skills. Students will also complete mock college applications, write letters of recommendation, and develop a resume.

#### **Module 3: My Financial Planning and Decisions**

Students will learn about paying for college—the FASFA form, grants, work study as well as how student loans work—how a loan is paid back and the real costs involved.

#### **Module 4: Employability**

Students will explore their personal aspirations for employment as well as identification of skills, training/education needs to acquire and maintain employment.

#### **Module 5: Civic and Social Responsibility**

Students will incorporate intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in local, regional, national, or global communities.

#### **Module 6: Preparation for the ACT**

The State of Wisconsin requires all eleventh-grade students to take the ACT in the Spring of their Junior year. Students will prepare to take the ACT test by receiving testing tips, reviewing content assessed, and taking a full-length practice test.

## **STUDENT AIDE**

Grades: 9-12                          One Semester or One Year                          0.5 or 1.0 Credit                          Elective  
Students who are interested in being of service to a faculty member may participate in this program. Student will help with such things as delivering messages, collecting and stapling books and worksheets, and other activities of a similar nature. The School Board of the Williams Bay School District recognizes that students may benefit from opportunities to work as aides in various academic departments

and school offices during the academic year. Student Aide will count as an elective credit towards graduation. Students will be given a grade of pass (P) or no credit (F). A total of 1.0 credit can be earned for the entire four years of the student's career. Students do not sign up for student aide assignments. Rather, teachers will select students out of study hall. Students who elect to be a student aid may not have a study hall.

## **SENIOR INTERNSHIP**

Grade: 12                                  Semester or One Year                                  .5 or 1.0 Credit                                  Elective  
Senior internship is a paid or non-paid work experience for credit. The work is usually done in an area the student is thinking about for his or her future. Past internship positions have been at Lakeland School, Williams Bay Elementary School, Yerkes Observatory, Williams Bay Care Center and Lake Geneva Environmental Agency. Many other interesting possibilities are available. The times and places are flexible depending on the student's interest and schedule. Internships are usually two periods in length. Weekly work logs MUST be completed as part of their grade. Students must provide their own transportation.

## **PEER HELPER/TUTORS**

Grades: 9-12                                  One Semester or One Year                                  0.25 or 0.5 Credit                                  Elective  
Peer Helper is an opportunity for our high school students to work with either elementary students or junior high students in the role of "special friend" or tutor. It is an after-school activity, one day per week. Students who work as peer helpers at the elementary school must provide their own transportation. 70% attendance is strongly recommended. Students receive a grade of P (pass), or F (fail). All students who want to be peer helpers may not be able to be placed. Priority is therefore given to juniors and seniors. Class meets one day a week.

## **INDEPENDENT STUDY**

Grade: 12  
The intent of independent study is to provide students the opportunity to expand their knowledge in curricular areas beyond the scope of what is offered at WBHS. Students are required to meet with the teacher for approximately one period each day to receive and review assignments. An independent study contract must be submitted to administration for approval and should include: reasons for the course, the objectives covered and methods of evaluation. Credit will be awarded upon successful completion of each course.

## **BUILDING TRADES ACADEMY**

Building Trades Academy is a unique opportunity for juniors and seniors to explore construction careers. Spaces are limited for these exciting classes (max. 20). The class is held one night a week from 6:00–9:00 p.m. beginning in early September. It is a 2-year program leading to a Wisconsin Skills Standard Certificate in Construction or Advanced Standing in Technical College.

The Building Trades Academy is open to students of:

- ◆ Badger High School
- ◆ Delavan-Darien High School
- ◆ Big Foot High School
- ◆ Williams Bay High School

<b>Year 1 Earns 1 Credit</b>	<b>Year 2 Earns 1 Credit</b>
Overview of Building Trades	Construction Co-op
Safety Training Tool & Skill Training	Work-Based Learning Opportunity
Building Projects	

## **START COLLEGE NOW/EARLY COLLEGE CREDIT**

---

### **Information for Students and Parents**

The Youth Options program allows public high school sophomores, juniors and seniors who meet certain requirements to take postsecondary courses at an institution of higher education. An institution of higher education (IHE) includes UW System institutions, and Wisconsin Technical Colleges.

### **Start College Now**

The program opens the door to greater learning opportunities for students who are considering a technical career, or students who want to prepare to enter the workforce immediately after high school graduation.

### **Early College Credit**

The student does not have to pay for a postsecondary course if the school board determines the course may receive high school credit and the course is not comparable to a course offered in the school district. (Under some circumstances a school board does have to pay for a comparable technical college course. If approved by the school board, the student will receive both high school and postsecondary credit for a successfully completed course. The high school will grant a diploma to a student who has successfully completed high school graduation standards, regardless of whether the requirements were met at the high school or a postsecondary institution.

### **Eligibility – Student/Parent Responsibilities**

Since all public high schools participate in the Start College Now program, all juniors and seniors in Wisconsin public schools who meet the program requirements are eligible. To qualify for the program, a student must:

- ◆ Have completed the 9<sup>th</sup> grade, and to attend a technical college, be in good academic standing and have an acceptable disciplinary record.
- ◆ Apply to the postsecondary institution in the school semester prior to the one in which the student plans to attend the postsecondary course.
- ◆ Notify the school board (complete form PI-8700A) of the student's intention of enrolling in a postsecondary institution no later than April 1 for a course to be taken in the fall semester; November 1 for a course to be taken in the spring semester.
- ◆ Notify the school board if the student is admitted to the postsecondary institution.
- ◆ Notify the school board if the student is registered to attend a postsecondary course.

A parent or guardian is responsible for satisfactory student attendance and the student's compliance with the compulsory school attendance law under 118.51 (1) (a). For additional information on the Youth Options Program please contact the building principal.

## **COURSE OPTIONS APPLICATION PROCEDURE**

---

Section 118.52, Wis. Stats. creates a part-time public school open enrollment program beginning in the 1998-99 school year. Under the part-time program, a student who is enrolled in a public school in the high school grades may attend up to two courses at a time in nonresident school districts.

### **Submitting Applications:**

1. A Williams Bay High School (WBHS) parent/student must submit the application (PI-9412) to the nonresident school district or districts **no later than 6 weeks before the scheduled start of the course. It is the responsibility of the parent/student to obtain from the nonresident school district the date on which the course will begin.**

**Applications may be obtained on the DPI website at: [dpi.wi.gov/sites/default/files/imce/forms/doc/f8900.doc](http://dpi.wi.gov/sites/default/files/imce/forms/doc/f8900.doc)**

2. The application must specify:
  - A) Name, Address, Phone Number and Grade
  - B) The course that the student wishes to attend
  - C) The school at which the student wishes to attend
3. A student may take up to two courses at one time. If the courses are at different nonresident school districts, a separate form must be filled out and submitted to each nonresident school.
4. Late applications will be returned to the parents/students with a letter indicating the required application date and explaining the reason for the return.
5. Fill out and submit to the **WBHS Student Services** the Part-Time Enrollment Policy Form located **in the Student Services Office.**

## **COMMON QUESTIONS:**

1. May students in middle school apply to take high school courses under the part-time open enrollment program?  
*No. Only students enrolled in the high school grades may take courses under the part-time open enrollment program.*
2. Do all the courses have to be taken in the same school district?  
*No. The student may take one course in one school district and another course in a different school district as long as the two courses are not taken at the same time. It is the responsibility of the student to ensure that her or his schedule can accommodate such an arrangement.*
3. How does a student find out when the course is scheduled to begin and what the prerequisites for the course are?  
It is the responsibility of the student to obtain this information from the nonresident school district.

## **PROCESSING APPLICATIONS - NONRESIDENT SCHOOL DISTRICT**

---

Within a few days of receiving the application form, the nonresident school district must send a copy of the application form to Williams Bay High School. As soon as possible after receiving the application, the nonresident school district should provide Williams Bay Schools an estimate of the cost of the course.

The nonresident school district may request any student records that are necessary to determine whether the student meets the entrance criteria for the course. The nonresident school district may also request a copy of any expulsion findings and orders pertaining to the student, a copy of records of any pending disciplinary proceeding and the length of the term of the expulsion or the possible outcomes of the pending disciplinary proceeding.

Except for space, the nonresident school district must use the same criteria for acceptance or rejection into a course that applies to resident students.

## **PROCESSING APPLICATIONS - RESIDENT SCHOOL DISTRICT**

---

Upon receiving copies of part-time open enrollment application forms from nonresident school districts, WBHS must act on them in accordance with school board policies and procedures.

Williams Bay High School may only reject an application if it determines that the course conflicts with the individualized education plan program (IEP) or if the cost of the course would impose on the resident school district an undue financial burden.

For questions about Part-Time Enrollment Policies or Procedures  
Contact: High School Principal – Dr. William White or School Counselor- Mrs. Megan Williamson.

## ADVANCED PLACEMENT COURSES

---

### What is an Advanced Placement (AP) Course?

The Advanced Placement program is a cooperative educational endeavor between secondary schools and colleges and universities. Students who participate in the program not only gain college-level skills, but in many cases they also earn college credit while they are still in high school. AP courses are taught by dedicated and enthusiastic teachers who follow course guidelines developed and published by the College Board.

### The AP Exam

Each school year during the month of May, students may elect to take an AP Exam for the course(s) they participated in during the school year. The exam grades are then reported to students and their designated colleges in July. The colleges use these grades as evidence of the students' abilities and achievements when they make their decisions regarding whether or not to grant credit and/or advanced placement. Some colleges may grant credit if a student earns at least a 3 on an exam, but each institution sets their own standards.

The AP grade scale ranges from 5 to 1:

- 5    Extremely well qualified
- 4    Well qualified
- 3    Qualified
- 2    Possibly qualified
- 1    No recommendation

### Cost of an AP Exam

Students must pay for each AP exam they take. The cost is approximately \$95.00 per exam. (Prices are subject to change)

### AP Courses Offered at Williams Bay High School

Williams Bay offers AP courses to its students in several ways. Some AP courses are taught directly by a Williams Bay teacher. Other AP courses are provided to our students through various distance education sites. In addition, other students choose to take an AP course independently through various suppliers of on-line AP courses. For up-to-date information on the availability of AP courses please contact the building principal.

The following AP Courses are available to Williams Bay students:

- ◆ AP English
- ◆ AP Biology
- ◆ AP Government
- ◆ AP Spanish
- ◆ AP Micro Economics
- ◆ AP Human Geography
- ◆ AP Calculus
- ◆ AP Chemistry
- ◆ AP Psychology
- ◆ AP U.S. History
- ◆ AP Macro Economics
- ◆ AP Statistics

**All students planning to apply and enroll in a University are strongly encouraged to take at least one AP course. AP courses promote rigor, challenging course work and college readiness.**

## **GUIDELINES FOR ONLINE COURSES**

---

**Budget restrictions apply for all online courses; therefore, enrollment may be limited to older students first. Consent from the principal is required for all online courses. The Online Course Request Form must be filled out if you are interested in taking a class. The form can be found on the [school website](#).**

Online courses are designed for self-motivated students with the necessary study skills to complete assignments, reading material, projects, tests and any other required work in a timely manner. Since much of the material is web-based students must also possess excellent computer skills. Students should also have appropriate verbal skills to enable them to communicate, when necessary, with the online instructor. Although online courses are monitored by a Williams Bay School staff member, assignments, tests, and grades are all given by the online instructor; modifications are therefore not allowed.

**The following criteria must be met prior to a student being granted approval to enroll in an online course(s):**

- Student must have exhausted all on campus course opportunities in the given subject area or the course is not offered at Williams Bay High School.
- Student must provide a teacher recommendation indicating that they are responsible and capable of working diligently and independently.
- Student must have earned grades of a C or above in all courses in the quarter prior to enrollment in an online course.
- Student has a course scheduling conflict that precludes them from taking the course on campus.
- Permission granted by the building principal.
- If a student is taking a course for credit recovery, permission will be granted by the school counselor and building principal.

**The following conditions will apply during enrollment in an online course(s):**

- The end date of all online courses will coincide with the semester end date for all onsite classes.
- Grades from district-provided online courses will be fully included on the student transcript and be part of the Grade Point Average consistent with Board Policy.
- The family will pay the cost of the course prior to enrollment and will become a family responsibility if a student earns a F. If the student passes the course, the family will be reimbursed for the full cost of the course.

**Prerequisites for online/distance learning AP classes:**

- ◆ 3.0 GPA
- ◆ Good attendance
- ◆ "B" or better in subject area
- ◆ Agreement to take AP Test (at student's expense)

**Prerequisites for non-AP online/distance learning classes:**

- ◆ Approval of staff member familiar with the student and the subject matter of the class
- ◆ Good attendance
- ◆ No grade below a C- (no D's or F's)

**Once students have enrolled in an online course they may not be allowed to drop it without financial penalty.** Therefore, careful consideration should be given prior to enrollment.

## ONLINE COURSES FOR THE 2019-2020 SCHOOL YEAR

---

Check the Student Services [webpage](#) or office for a full list of online courses that are available.

### AP Psychology

Grades: 11-12	One Semester	0.5 Credit	Elective
---------------	--------------	------------	----------

AP Psychology provides an overview of current psychological research methods and theories. Students will explore the therapies used by professional counselors and clinical psychologists and examine the reasons for normal human reactions; how people learn and think the process of human development and human aggression, altruism, intimacy, and self-reflection. They'll study core psychological concepts, such as the brain and sense functions, and learn to gauge human reactions, gather information, and form meaningful syntheses. Along the way, students will also investigate relevant concepts like study skills and information retention. AP Psychology prepares students for the AP Exam. The content aligns to the scope and sequences specified by the College Board and to widely used textbooks.

### AP Microeconomics

Grades: 11-12	One Semester	0.5 Credit	Elective
---------------	--------------	------------	----------

AP Microeconomics studies the behavior of individuals and businesses as they exchange goods and services in the marketplace. Students will learn why the same product costs different amounts at different stores, in different cities, at different times. They'll also learn to spot patterns in economic behavior and how to use those patterns to explain buyer and seller behavior under various conditions. Microeconomics studies the economic way of thinking, understanding the nature and function of markets, the role of scarcity and completion, the influence of factors such as interest rates on business decisions, and the role of government in promoting a healthy economy. AP Microeconomics prepares students for the AP Exam. The content aligns to the scope and sequence specified by the College Board and to widely used textbooks.

### AP Macroeconomics

Grades: 11-12	One Semester	0.5 Credit	Elective
---------------	--------------	------------	----------

AP Macroeconomics students learn why and how the world economy can change from month to month, how to identify trends in our economy, and how to use those trends to develop performance measures and predictors of economic growth or decline. They'll also examine how individuals, institutions, and influences affect people, and how those factors can impact everyone's life through employment rates, government spending, inflation, taxes, and production. AP Macroeconomics prepares students for the AP Exam. The content aligns to the scope and sequence specified by the College Board and to widely used textbooks.

## VANGUARD COURSE OFFERINGS

---

VANguard courses allow our students to take part in courses that are not taught at our school. Following is a tentative list of courses that may be offered through the VANguard network. Courses are year-long unless otherwise noted. Exact times for these courses are not yet known. Students interested in any VANguard course should see Dr. White for further information.

### AMERICAN SIGN LANGUAGE I

Grades 9-12	One Semester	1.0 Credit	Elective
-------------	--------------	------------	----------

This is an introductory Gateway Technical College course for the individual who has no previous experience with sign language. The course emphasis is on basic signing/conversational skills. Students will need to submit video assignments and hand in projects via Blackboard.

### AMERICAN SIGN LANGUAGE II

Grades 9-12	One Semester	1.0 Credit	Elective
-------------	--------------	------------	----------

**Prerequisite:** ASL I

This is a Gateway Technical College course. Students will learn intermediate level sign language. Students should have successfully completed ASL I. Students will need to submit video assignments and hand in projects via Blackboard.

## **GERMAN I**

Grades 9-12	One Year	1.0 Credit	Elective
-------------	----------	------------	----------

German I is a course for giving students a basic knowledge of the sound structure, grammatical concepts, and conversation patterns of the German language. Emphasis is on conversational German with some exposure to writing. German culture in the form of history, geography, eating, sports, customs, etc., is also included in the curriculum to insure an understanding of the German-speaking people.

## **GERMAN II**

Grades 10-12	One Year	1.0 Credit	Elective
--------------	----------	------------	----------

A year-long elective course for grade levels 10-12, German II is a continuation of German I. New advanced grammatical concepts will be introduced. Emphasis on conversational German will continue with added concentration on reading comprehension and writing skills.

## **NONDISCRIMINATION**

---

It is the policy of the Williams Bay School District that no person may be denied admission to any public school in this district or be denied participation in, the benefits of, or be discriminated against in any curricular, extracurricular, pupil service, recreation or other program or activity because of the person's sex, race, religion, color, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation or physical, mental, emotional or learning disability, handicap or homeless status.

The district encourages informal resolution of complaints under this policy. A formal complaint resolution procedure (see Policy 411) is available, however, to address allegations of violations of the policy in the Williams Bay School District.

Any questions concerning this policy should be directed to:

**Dr. Wayne Anderson**  
*District Administrator*  
**Williams Bay School District**  
Williams Bay, WI 53191  
(262) 245-6224
